Factors which are material for the purpose of assessing the market risks associated with Bond

The Bonds may not be a suitable investment for all investors. Each potential investor in the Bonds must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the Bonds, the merits and risks of investing in the Bonds and the information contained or incorporated by reference in this Securities Note and/or Registration Document or any applicable supplement;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Bonds and the impact the Bonds will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Bonds, including where the currency for principal or interest payments is different from the potential investor's currency;
- (iv) understand thoroughly the terms of the Bonds and be familiar with the behaviour of the financial markets; and
- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

1. Risk factors

All investments in interest bearing securities have risk associated with such investment. The risk is related to the general volatility in the market for such securities, varying liquidity in a single bond issue as well as company specific risk factors. The Bonds may not be a suitable investment for all investors. Each potential investor in the Bonds must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should have sufficient knowledge and experience to make a meaningful evaluation of the Bonds, the merits and risks of investing in the Bonds. An investment in the Bonds entails significant risks and is suitable only for investors who understand the risk factors associated with this type of investment and who can afford a loss of all or part of its investment.

The main risks, in the view of the Issuer, related to these specific bonds are described below. Risks related to the Issuer are described in the Registration Document, dated 21.04.2026.

Risks related to the Bonds being perpetual and unsecured subordinated obligations of the Issuer

The Bonds constitute unsecured subordinated obligations of the Issuer. The Bonds are also structurally subordinated to liabilities of the Issuer's subsidiaries. The Bonds are perpetual without any scheduled maturity date and are not redeemable at the option of the holders.

The Bonds are furthermore not subject to general undertakings, other than a compliance with laws undertaking and reporting undertakings, but so that no misrepresentation under representations and warranties or breach of any other provision constitute an enforceable event of default or triggers any forced repayment outside liquidation proceedings or a non-solvent dissolution. Bondholders may therefore be unable to accelerate the Bonds or take other actions against the Issuer to preserve their investments, even if the financial condition of the Issuer materially deteriorates. The Bonds will become immediately due and payable only in the event of liquidation proceedings or a non-solvent dissolution of the Issuer. Otherwise, repayment of the Bonds is discretionary to the Issuer.

All claims in respect of the Bonds will rank as described in the Bond Terms and shall rank (a) *pari passu* among themselves and any obligation that ranks or is expressed to rank *pari passu* with the Bonds ("Parity Obligations"), in priority to (i) payments to holders of all classes of share capital of the Issuer in their capacity as such holders and (ii) any other obligation of the Issuer expressed by its terms as at its original issue date to rank, or which pursuant to Norwegian law will rank, junior to the Bonds and the Parity Obligation ("Junior Obligations"); and (b) junior in right of payment of any present or future claims (i) of all unsubordinated creditors of the Issuer, and (ii) of all subordinated creditors of the Issuer whose rights are expressed to rank senior to the Bonds.

If, upon the Bonds being accelerated, the assets of the Issuer are insufficient to enable it to repay the claims of more senior-ranking creditors in full, the Bondholders will lose their entire investment in the Bonds. If there are sufficient assets to enable the Issuer to pay the claims of senior ranking creditors in full but insufficient assets to enable it to pay claims in respect of its obligations in respect of the Bonds and all other claims that rank *pari passu* with the Bonds, Bondholders will lose some or all of their investment in the Bonds.

Unsecured bonds, in general, carry a higher risk than secured bonds since secured bonds have preferred recovery from secured assets.

Risks related to the market; A trading market may not develop, and market price may be volatile

The Bonds will be new securities for which there is currently no trading market. Further, the value of the Bonds may decrease due to the change in value of the market risk factors. The price of a single bond issue will fluctuate in accordance with the interest rate and credit markets in general, the

markets view of the credit risk of that particular bond issue, and the liquidity of the bond issue in the market. Despite an underlying positive development in the Issuer's business activities, the price of a Bond may fall independent of this fact. No market-maker agreement is entered into in relation to this Bond issue, and the liquidity of bonds will always depend on the market participants view of the credit quality of the Issuer as well as established and available credit lines. It may be difficult or even impossible to trade and sell the Bonds in the secondary market. If an active market does not develop or is not maintained, the price and liquidity of the Bonds may be adversely affected.

Risks related to interest rate

The primary price risk for a floating rate bond issue will be related to the market view of the correct trading level for the credit spread related to the bond issue at a certain time during the tenor, compared with the credit margin the bond issue is carrying. A possible increase in the credit spread trading level relative to the coupon defined credit margin may relate to general changes in the market conditions and/or Issuer specific circumstances. However, under normal market circumstances the anticipated tradable credit spread will fall as the duration of the bond issue becomes shorter. In general, the price of bonds will fall when the credit spread in the market increases, and conversely the bond price will increase when the market spread decreases.

Risks of being unable to repay the Bonds

During the lifetime of the Bonds, the Issuer may be required to make payments on the Bonds. The Issuer's ability to generate cash flow from operations and to make payments on and to repay the Bonds, will depend on the future financial performance of the Group. In addition, the Issuer's ability to pay amounts due on the Bonds may depend on the financial performance of its subsidiaries and upon the level of distributions, interest payments and loan repayments, if any, received from its subsidiaries, any amounts received on disposals of assets and equity holdings and the level of cash balances. Certain of the Group's operating subsidiaries may be subject to restrictions on their ability to make distributions and loans including as a result of restrictive covenants in loan agreements, foreign exchange and other regulatory restrictions and laws and agreements with other shareholders of such subsidiaries (if applicable) or associated undertakings.

If the Issuer is unable to generate sufficient cash flow from operations or through distributions from its subsidiaries in the future to service its debt, it will be forced to adopt an alternative strategy that may include actions such as reducing or delaying capital expenditures, selling assets, restructuring or refinancing indebtedness or seeking equity capital. The Issuer cannot assure investors that any of these alternative strategies could be affected on satisfactory terms, if at all, or that they would yield sufficient funds to service or to repay the Bonds. In case of a bankruptcy, the Bondholders risk losing their entire investment, and settlement of any potential dividend will not take place until the bankruptcy proceedings have been completed.

Risks related to Deferral of Interest

Subject to certain conditions under the terms of the Bonds, the Issuer may elect to defer coupon payments at any time. As a result, the Bondholders are not guaranteed to receive coupon payments and may potentially not receive any periodic return on their investment.

Risks related to change of control

The individual bondholder will not have a right to have its Bonds redeemed in case of any change of control or change of ownership in the Issuer. A change of control or change of ownership in the Issuer could lead to a new owner incorporating a change in strategy, risk appetite or business model of the Issuer which may negatively affect the Issuer's ability to service and redeem the Bonds. In addition, certain of the Group's charter contracts, borrowing agreements and other instruments are subject to change of control or change of ownership provisions. A breach of such provisions may lead to termination of these contracts, borrowing arrangements or other instruments and may result in decreased income, increased costs and/or losses, which in turn may have a material adverse effect on the Group's business, financial position, results of operations, future prospects, and the Issuer's ability to service and redeem the Bonds.

Risks related to U.S. securities laws

The Bonds have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the "Securities Act"), or the securities laws of any state of the United States, and are subject to U.S. tax law requirements. The Bonds may not be offered, sold or delivered within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act. Prospective investors in the Bonds may not be able to recover in civil proceedings for U.S. securities laws violations. The Issuer is incorporated under the laws of Norway. The majority of the Issuer's assets are located outside the United States. As a result, it may not be possible for investors to effect service of process upon the Issuer or to enforce against the Issuer judgments obtained in U.S. courts predicated upon the civil liability provisions of the federal securities laws of the United States.

Risks related to the Issuer's redemption of Bonds

Pursuant to the terms of the Bonds, the Issuer may redeem all or parts of the Bonds at various call prices during the lifetime of the Bonds. This is likely to limit the market value of the Bonds. During any period when the Issuer may redeem the Bonds, the market value of the Bonds generally will not rise substantially above the price at which they can be redeemed. This may also be true prior to any redemption period.

Risks related to amendments and waivers to the Bond Terms

The Bond Terms for the Bonds will allow for amendments and waivers to be made following approval of a quorum of one or more persons holding or representing not less than 2/3 of the outstanding Bonds or in certain instances upon approval by the bond trustee who is vested with discretionary powers. The bond trustee will be required to act in accordance with instruction given by a requisite majority of Bondholders. Bondholders face a risk that the Bond Trustee will agree to changes or amendments, or take actions, without the explicit consent of each of the Bondholders, binding all Bondholders, including Bondholders who did not attend and vote at the relevant bondholder meeting and Bondholders who vote in a manner contrary to the majority.

Any such deferral of an interest payment shall not constitute a default or any other breach of the obligations of the Issuer under the Bond Terms.
- (b) The Issuer shall submit any Deferral Notice to the Bond Trustee and the Paying Agent as soon as practicable and in any event not less than ten (10) Business Days prior to the relevant Interest Payment Date. Such notice shall be irrevocable.
- (c) Any Deferred Interest shall not bear interest and shall not be added to the Nominal Amount of the Bonds. Any Deferred

Interest will be provided with a separate ISIN in accordance with the procedures in the CSD. The ISIN for any Deferred Interest will not have voting rights under the Bond Terms and will be subject to Bondholders' decisions made in any Bondholders Meeting.

- (d) The Issuer shall pay all outstanding Deferred Interest on the earlier of:
- (i) the next Interest Payment Date on which the Issuer has not elected to defer the interest payable;
 - (ii) any Call Option Repayment Date; and
 - (iii) the date on which liquidation proceedings are formally opened with respect to the Issuer or the date on which the Issuer is otherwise dissolved (unless such dissolution is done for the purpose or as a result of a merger where the Issuer is still solvent and the continuing entity assumes substantially all of the assets and obligations of the Issuer).

Payment Date:	Means any Interest Payment Date or any Repayment Date.
Issue Price:	100.00 per cent. of Nominal Amount.

Depending on the development in the bond market in general and the development of the Issuer, the price of the Bonds may have increased (above par) or decreased (below par). As the Bonds have a floating reference rate, it is the market's expectations of risk premium, i.e. margin that affects the price. If the price has increased, the yield for the purchaser in the secondary market, given that the reference rate does not change, will be lower than the interest rate of the Bonds and vice versa. The yield is calculated in accordance with «Anbefaling til Konvensjoner for det norske sertifikat- og obligasjonsmarkedet» https://finansfag.no/uploads/Publikasjoner/Rentekonvensjon-6.0_oppdateret_26.06.2024_final.pdf² prepared by Norske Finansanalytikeres Forening in June 2024.

The Bond Trustee or the person who convened the initial Bondholders' Meeting may, within ten (10) Business Days of that Bondholders' Meeting, convene a repeated meeting with the same agenda as the first meeting.

A Summons for a repeated Bondholders' Meeting shall also contain the voting results obtained in the initial Bondholders' Meeting.
- (c) A repeated Bondholders' Meeting may only be convened once for each original Bondholders' Meeting. 15.5 Written Resolutions

- (a) Subject to these Bond Terms, anything which may be resolved by the Bondholders in a Bondholders' Meeting pursuant to Clause 15.1 (*Authority of the Bondholders' Meeting*) may also be resolved by way of a Written Resolution. A Written Resolution passed with the relevant majority is as valid as if it had been passed by the Bondholders in a Bondholders' Meeting, and any reference in any Finance Document to a Bondholders' Meeting shall be construed accordingly.
- (b) The person requesting a Bondholders' Meeting may instead request that the relevant matters are to be resolved by Written Resolution only, unless the Bond Trustee decides otherwise.
- (c) The Summons for the Written Resolution shall be sent to the Bondholders registered in the CSD at the time the Summons is sent from the CSD and published at www.stamdata.com, or other relevant electronic platform or via stock exchange announcement.

shall not apply to a Written Resolution.

- (e) The Summons for a Written Resolution shall include:

- (g) A Written Resolution is passed when the requisite majority set out in paragraph (e) or (f) of Clause 15.1 (*Authority of the Bondholders' Meeting*) has been obtained, based on a quorum of the total number of Voting Bonds, even if the Voting Period has not yet expired. A Written Resolution will also be resolved if the sufficient numbers of negative votes are received prior to the expiry of the Voting Period.
- (h) The effective date of a Written Resolution passed prior to the expiry of the Voting Period is the date when the resolution is approved by the last Bondholder that results in the necessary voting majority being obtained.
- (i) If no resolution is passed prior to the expiry of the Voting Period, the number of votes shall be calculated at the time specified in the Summons on the last day of the Voting Period, and a decision will be made based on the quorum and majority requirements set out in paragraphs (e) to (g) of Clause 15.1 (*Authority of the Bondholders' Meeting*).

- (e) The Bond Trustee shall hold all amounts recovered on behalf of the Bondholders on separated accounts.
- (f) The Bond Trustee shall facilitate that resolutions passed at the Bondholders' Meeting are properly implemented, provided, however, that the Bond Trustee may refuse to implement resolutions that may be in conflict with these Bond Terms, any other Finance Document, or any applicable law.

- (h) If the cost, loss or liability which the Bond Trustee may incur (including reasonable fees payable to the Bond Trustee itself) in:
 - (i) complying with instructions of the Bondholders; or
 - (ii) taking any action at its own initiative,

- (i) The Bond Trustee shall give a notice to the Bondholders before it ceases to perform its obligations under the Finance Documents by reason of the non-payment by the Issuer of any fee or indemnity due to the Bond Trustee under the Finance Documents.

- (j) The Bond Trustee may instruct the CSD to split the Bonds to a lower nominal value in order to facilitate partial redemptions, write-downs or restructurings of the Bonds or in other situations where such split is deemed necessary.

16.3 Equality and conflicts of interest

The Bond Trustee shall not be responsible for any indirect or consequential loss. Irrespective of the foregoing, the Bond Trustee shall have no liability to the Bondholders for damage caused by the Bond Trustee acting in accordance with instructions given by the Bondholders in accordance with these Bond Terms.
- (b) The Bond Trustee will not be liable to the Issuer for damage or loss caused by any action taken or omitted by it under or in connection with any Finance Document, unless caused by its gross negligence or wilful misconduct. The Bond Trustee shall not be responsible for any indirect or consequential loss.
- (c) Any liability for the Bond Trustee for damage or loss is limited to the amount of the Outstanding Bonds. The Bond Trustee is not liable for the content of information provided to the Bondholders by or on behalf of the Issuer or any other person.
- (d) The Bond Trustee shall not be considered to have acted negligently in:
 - (i) acting in accordance with advice from or opinions of reputable external experts; or
 - (ii) taking, delaying or omitting any action if acting with reasonable care and provided the Bond Trustee considers that such action is in the interests of the Bondholders.
- (e) The Issuer is liable for, and will indemnify the Bond Trustee fully in respect of, all losses, expenses and liabilities incurred by the Bond Trustee as a result of negligence by the Issuer (including its directors, management, officers, employees and agents) in connection with the performance of the Bond Trustee's obligations under the Finance Documents, including losses incurred by the Bond Trustee as a result of the Bond Trustee's actions based on misrepresentations made by the

- (f) The Issuer shall cover all costs and expenses incurred by the Bond Trustee in connection with it fulfilling its obligations under the Finance Documents. The Bond Trustee is entitled to fees for its work and to be indemnified for costs, losses and liabilities on the terms set out in the Finance Documents. The Bond Trustee's obligations under the Finance Documents are conditioned upon the due payment of such fees and indemnifications. The fees of the Bond Trustee will be further set out in the Bond Trustee Fee Agreement.
- (g) The Issuer shall on demand by the Bond Trustee pay all costs incurred for external experts engaged after the occurrence of an Acceleration Event, or for the purpose of investigating or considering (i) an event or circumstance which the Bond Trustee reasonably believes is or may lead to an Acceleration Event or (ii) a matter relating to the Issuer or any Finance Document which the Bond Trustee reasonably believes may constitute or lead to a breach of any Finance Document or otherwise be detrimental to the interests of the Bondholders under the Finance Documents.
- (h) Fees, costs and expenses payable to the Bond Trustee which are not reimbursed in any other way due to an Acceleration Event, the Issuer being Insolvent or similar circumstances pertaining to the Issuer, may be covered by making an equal reduction in the proceeds to the Bondholders hereunder of any costs and expenses incurred by the Bond Trustee in connection therewith. The Bond Trustee may withhold funds from any escrow account (or similar arrangement) or from other funds received from the Issuer or any other person, and to set-off and cover any such costs and expenses from those funds.

- (c) If the Bond Trustee is Insolvent, or otherwise is permanently unable to fulfil its obligations under these Bond Terms, the Bond Trustee shall be deemed to have

resigned and a successor Bond Trustee shall be appointed in accordance with this Clause 16.5. The Issuer may appoint a temporary Bond Trustee until a new Bond Trustee is elected in accordance with paragraph (a) above.

- (d) The change of Bond Trustee shall only take effect upon execution of all necessary actions to effectively substitute the retiring Bond Trustee, and the retiring Bond Trustee undertakes to co-operate in all reasonable manners without delay to such effect. The retiring Bond Trustee shall be discharged from any further obligation in respect of the Finance Documents from the change takes effect, but shall remain liable under the Finance Documents in respect of any action which it took or failed to take whilst acting as Bond Trustee. The retiring Bond Trustee remains entitled to any benefits and any unpaid fees or expenses under the Finance Documents before the change has taken place.
